CAREER SUMMARY

Early-Career Software Engineer with hands-on experience in Python, Machine Learning, and Computer Vision, gained through a 6-month industry internship. Developed real-time ML applications, optimized inference pipelines to achieve ~30% faster performance, and improved system reliability by resolving 12+ production-level issues in Linux-based environments.

WORK EXPERIENCE

INFINITUDE IT PVT. LTD | Intern

Mar 2024 – Aug 2024

- Completed 3 real-world projects using Python, Machine Learning, and cloud-based tools, following industry development practices.
- Implemented a computer vision-based hand gesture recognition solution using MediaPipe and OpenCV, achieving ~90% accuracy in real-time inference.
- Optimized ML inference pipelines, achieving ~30% faster inference performance, and supported secure server access and deployment workflows in Linux environments.

PROJECT EXPERIENCE

Eizen AI – Hand Gesture Recognition

- Engineered a low-latency gesture recognition application built with Python and MediaPipe, achieving ~90% accuracy.
- Produced and delivered a Proof of Concept (PoC) based on client requirements to support further development.

Skill Swap Hub – Secure Server Automation

- Configured SSH key-based authentication on Linux servers, eliminating password-based access and improving security.
- Streamlined server access and configuration using Ansible, reducing manual maintenance and improving deployment efficiency.

Promulgate Innovations – Digital Marketing Web Design

- Created UI/UX prototypes for a digital marketing website using Figma, focusing on usability and clear user flow.
- Coordinated with stakeholders to refine designs based on business requirements, improving user engagement during testing.

SKILLS

- Programming Languages:** Python, SQL, C++, Data Structures, JavaScript, Shell Scripting
- Frameworks & Libraries:** NumPy, Pandas, Scikit-learn, OpenCV, Keras, Tensorflow, PyTorch, OpenCV, Matplotlib, Django
- Databases:** MySQL, Microsoft SQL Server
- Tools and Platforms:** Git, GitHub, Linux, Excel, Postman, Figma
- Machine Learning:** Machine Learning, Deep Learning, Model Evaluation, EDA
- Computer Vision:** OpenCV, MediaPipe
- Cloud:** AWS – Amazon EC2, Amazon S3, Amazon RDS, Amazon VPC, AWS IAM

EDUCATION

Bachelor of Technology — Computer Science Engineering

Mahatma Gandhi Institute of Technology, Hyderabad

2019 – 2023 | CGPA: 7.0

Intermediate (MPC)

Krishnaveni Junior College - Khammam, Telangana.

2017 – 2019 | Percentage: 95.3%

SSC

K G B G VIDYALAYAM - khammam, Telangana

2016 – 2017 | CGPA: 9.2

VIRTUAL INTERNSHIP

Verzeo — Machine Learning Virtual Internship

Apr 2022

Built a machine learning predictive model using Python, improving data accuracy by 20%+ through preprocessing and model tuning.

CERTIFICATIONS

NPTEL Online Certification – Social Networks

Oct 2021

Coursera – Programming for Everybody (Python), University of Michigan

Apr 2022

Forage – Accenture North America Data Analytics and Visualization Job Simulation on Forage

Nov 2024

Forage – Goldman Sachs Operations Job Simulation on Forage

Dec 2024
